PRESS RELEASE

To cater to the needs of student community of North Kashmir , Govt. Degree College Pattan is pleased to announce the launch of three year Six semester course in Information Technology titled as B.Sc-IT from current academic session. The said program is unique in the sense that it is only being run in Cluster University Srinagar at S.P.College at present and generates manpower in Information and communication technology(ICT).

The course is 132 credit six semester program with eligibility of 10+2 Medical & Non Medical with 45% marks for General Category and 40% marks for reserved category. During the course student will be taught diverse subjects like Mathematics , communicative English , Electronics , Management Information system besides core subjects of IT and computer science.

The student pass outs can join ICT industry or peruse higher studies in terms of M.Sc IT and further.

On completion of course a student will be fully laden with knowledge / skill set in Information technology. The fact that manpower handling Data and ICT are in great demand makes the course attractive for young minds . The course is being offered in very few colleges and present intake for the course is 30 only.

Due to unforeseen circumstances a good number of seats are still vacant. Students desirous of seeking admission in the program can approach College admission section by or before 12th May 2018 with all relevant documents.
