## About College

The institution has been established in the year 2005 and caters to the needs of Pattan and adjoining areas. The majority of students coming from economically and educationally weaker sections of the society, have tremendous quest for learning.

At present college has an enrollment of 2600 plus students in the streams of Science, Humanities and Commerce with girl students outnumbering the boys.

## Department of Environmental Science

The undergraduate Department of Environmental Science is one of the largest departments of the college which strives tirelessly as a team so that our young students may evolve into future guardians of the environment. The Department has been working since 2005, ever since the foundation of this college. Till date the Department has been successfully able to infuse environmental sensitivity among hundreds of its students in particular and masses in general by way of conducting various programs like seminars, debates, rallies, essay and painting competitions etc.

In this regard, we invite the students of all colleges to participate in these events as per the schedule and we also invite the interested faculty members of all colleges for their valued participation in the webinar, with prior registration.

The food we eat, the air we breathe, the water we drink and the climate that makes our planet habitable, all come from nature. Yet, these are exceptional times in which nature is sending us a message: To care for ourselves we must care for nature. It's time to wake up. To take notice. To raise our voices. It's time to build back better for People and Planet. This World Environment Day, it's Time for Nature: It's time to restore ecosystem, It's time to save human race... Let's Celebrate

## "Ecosystem Restoration"
